

Woodpecker "Photo Quiz"!

Sometimes birds just don't look like the pictures in our Field Guides! This is especially true during "baby season". Pictured on this page are a variety of immature woodpecker species. See if you can match the name to the proper image.

(hint: some species are pictured more than once)

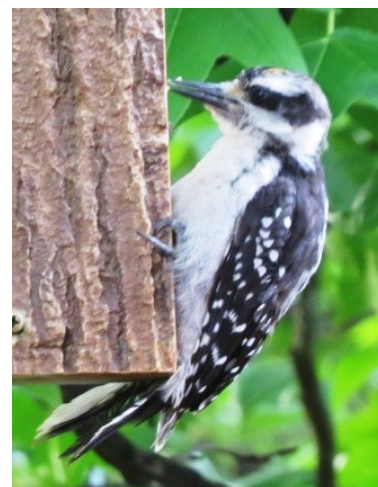

Pictured on this Page:

- Red-bellied Woodpecker
- Red-headed Woodpecker
- Downy Woodpecker
- Hairy Woodpecker
- Pileated Woodpecker

Can you match the name to the image(s)?

(See page 2 for pics of these birds in adult plumage).

Birds-I-View's

Woodpecker "Photo Quiz"! (page 2)

Above: Hairy Woodpecker

Each of the Woodpecker species pictured on this page is represented on Page One of this Quiz as an immature bird.

Can you match the species name to the pictures on Page One of this quiz?
